Technology Industry Veteran Michael Feldman, Appointed President and CTO AMFELTEC Corporation

TORONTO, ON -- September 25, 2012 -- Michael Feldman, a technology industry veteran, has been appointed president and chief technology officer of AMFELTEC Corporation (www.amfeltec.com), effective immediately.

AMFELTEC is a privately-owned company and leading supplier of electronic equipment for hardware/software developers, original equipment manufacturers and system integrators in diverse industrial markets worldwide including the telecommunication and electronic sectors.

Prior to joining AMFELTEC, Michael was the director of hardware engineering at Sangoma Technologies Inc., the premium provider of PC-based telephony hardware and software products for proprietary and open source based networking and telephony solutions. For almost 10 years at Sangoma, Michael was responsible for leading the hardware group to maintain its high standards of quality and innovation, such as the development of the company's revolutionary technology concept and award-winning Advanced Flexible Telecommunications (AFT) product line.

"I look forward to bringing my leadership as well as my research and development expertise to AMFELTEC as we design and manufacture innovative products for various market segments," says Michael Feldman.

AMFELTEC's current patented, unique line of products includes: PCI/PCI express expansion backplanes, PCI express cable extenders, In-Circuit Programmer (EasyLoader), award-winning Batteryless System Loggers and other innovations. These products enable design engineers to quickly and accurately complete their projects while keeping the total cost of ownership within industry standards.

Michael Feldman has more than 28 years of extensive engineering and management experience in electronics and computer hardware design. He has been awarded 11 patents and has published seven, industry-recognized whitepapers. Michael holds a Masters Degree in Electronic Engineering and Computers from the Moscow Institute of Radio Engineering, Electronics and Automatics.
