Piranha
ANALOG TELEPHONY
F A M I L Y

The Piranha logo features a stylized green and white illustration of a piranha's head, facing right, with its mouth open showing sharp teeth. Below the illustration, the word 'Piranha' is written in a large, bold, italicized sans-serif font. Underneath 'Piranha', the words 'ANALOG TELEPHONY' and 'F A M I L Y' are stacked in a smaller, bold, all-caps sans-serif font.

Supports Asterisk®.

Direct connection to DAHDI

Interface for PBX connection:

Compliant with USB 2.0

Software package:

Linux Driver for DAHDI.

Firmware update software

RoHS-compliant:

Environmentally friendly

SKU-082-01
SKU-082-02

USB-FXO Adapter

- Cost-effective PSTN connection
- Powered via USB interface
- PBX Connection via USB 2.0 interface
- Natively supports Asterisk®
- Has direct connection to DAHDI

SKU-083-01

USB-FXS Adapter

- Cost-effective Analog Phone connection
- Powered via USB interface
- PBX Connection via USB 2.0 interface
- Natively supports Asterisk®
- Has direct connection to DAHDI

SKU-084-01

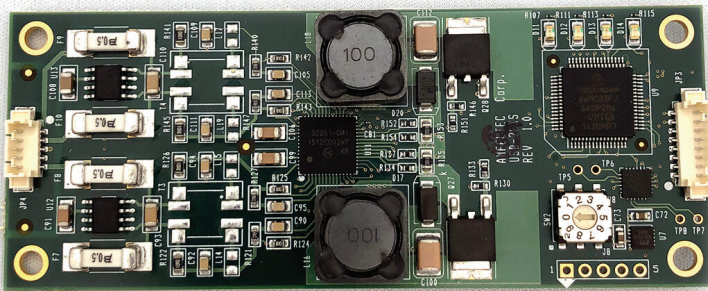

USB-PA Adapter

- Cost –effective Public Announcement (PA)
- Powered via USB interface
- Natively supports Asterisk®
- Has direct connection to DAHDI

SKU-087-01

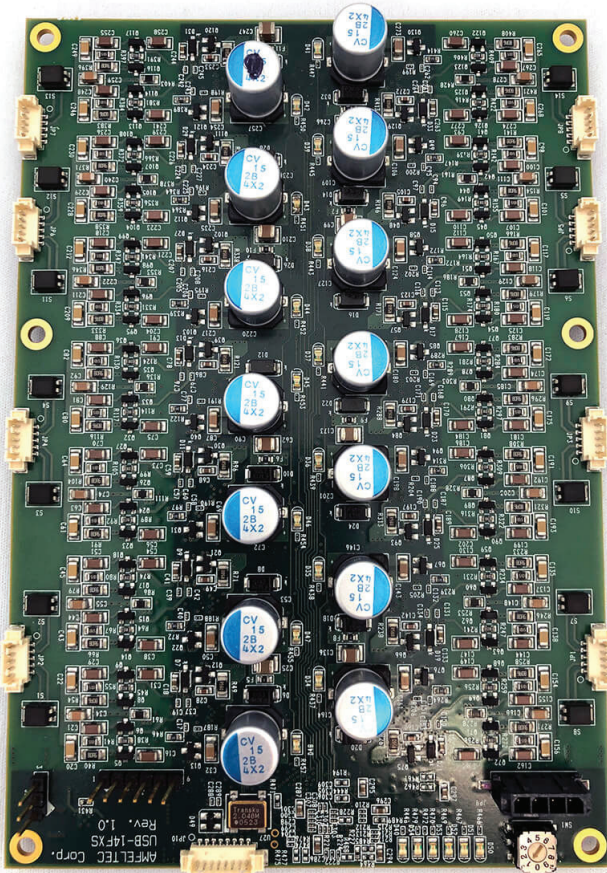

2-channel USB-FXS Adapter

- Cost –effective Analog Phone connection (2 lines)
- Powered via USB interface
- Natively supports Asterisk®
- Has direct connection to DAHDI

SKU-087-03

14-channel USB-FXS Adapter

- Cost-effective Analog Phone connection (14 lines)
- Natively supports Asterisk®
- Has direct connection to DAHDI

About Us

Amfeltec Corporation is a leading Canadian designer and manufacturer of complex and innovative electronics solutions, based in Stouffville, Ontario.

Our product lines include:

- system monitoring and crash recovery products
- carrier boards (SSD, wireless, video)
- telecommunication solutions
- SSD boards
- computer hardware expansion products
- testing, debugging and production tools

Amfeltec places a special focus on high-speed inter-connectivity technologies.

Since its incorporation in 2005, *Amfeltec* has served various customer segments, ranging from small businesses and individual consumers to multinational corporations and government agencies, including the defence industry and electronics companies specializing in the development of high-performance, custom-built computer systems.

Amfeltec's multi-decade industry experience, engineering expertise, innovation track record, and a diverse product portfolio make the company a solution provider of choice for many enterprises worldwide.

Notable *Amfeltec* product families include *Squid Carrier Board*(™), *Piranha USB Telecom Adapter*(™), *Arowana PCIe SSD Board*(™), *AngelShark Carrier Board*(™) and *PocketShark*(™) Batteryless System Loggers.

Most of our products are covered by one or more United States patents.

All our products are designed and manufactured in Canada.
